Form of Exercise
Playing Basketball

Form of Exercise
Going for a Walk

Children:
None

How Adoption Has Affected Us

Jason was truly blessed to have an older sister and brother who have been adopted. Jason's parents went through many years and struggles of trying to have children. They finally came to a point that they realized that the path of adoption was the correct path for them. Jason's sister was the first to be adopted. Two years later Jason's brother was adopted. Three years later Jason was born. Jason was taught at an early age that his brother and sister had been adopted, but that didn't affect Jason's view or feelings at all of them. Jason has always thought of his sister and brother as if they were all born from the same mother. They love each other no matter what and would do anything for each other.

Jenny and Jason both love all of their family members equally. Our parents have taught us that giving birth is not the only way to have a child. Two very successful adoption stories made the choice very easy for Jenny and Jason. It doesn't matter if you are related by blood or not, it's a matter of loving and respecting each other and being there for each other 100 percent of the time.

Our Leisure Time

In the Fall, Jason enjoys going to Ohio State Football games with Jenny's dad. Jenny's dad has season tickets and at least once a season he invites Jason to come with him. Jason also enjoys traveling back home to Pennsylvania to visit his friends, taking in a Philadelphia Phillies game, and going on road trips with Jenny.

Jenny enjoys going shopping. She likes going to a variety of stores. Jenny also enjoys cooking and entertaining friends and family at the house. The love of cooking is a trait that has been handed down from her mother.

Jenny and Jason enjoy spending a lot of time with their nieces and nephews. It's great having so many that are involved in different activities. Every few months we have all four nephews and both nieces over for a sleepover from both sides of the family. The kids all get along so well and have fun staying at Aunt Jen and Uncle Jason's house.

Our House & Neighborhood

We reside in a new development. The town itself is a quiet, suburban town in Ohio. The house is a one level ranch with three bedrooms, a large kitchen for cooking, and beautiful living room for entertaining company or just simply relaxing. We have added lots of trees to the back of the house along with a new patio.

We dream about the day when we will get to decorate a nursery for the new arrival. Our neighborhood is full of younger families and children of all ages. The neighborhood children love playing together at each other's houses.

Our Home

Our House & Neighborhood, (continued)

Back of Our House

There is a beautiful park close by that we enjoy taking our nieces and nephews to play at. In the summertime we like to spend time at the pool. The pool is a private pool open for employees and family members of the company that Jason's dad works at.

The local elementary school is the same school that Jason teaches at. Someday your child will be able to attend the same school that Jason teaches at. Not too far away is a beautiful zoo that we have a membership to.

Our Extended Families

Jason is the youngest of three children. Jason's father works part time and enjoys working outside on his lawn in the Spring and Summer. He has passed on the love of working hard around the house and making it look nice to Jason. Jason's mother passed away a few years ago and is greatly missed by everyone. Before she passed away she enjoyed spending her time with her children and grandchildren and she looked forward to more grandchildren. Jason's mother was a very loving and outgoing person. Jason's brother lives close by and has a daughter who is 10 and a son who is 7. Jason also has an older sister who lives in Columbus. She has a love for reading and history.

Jenny is the youngest of two. Her father is recently retired and now enjoys working around the house and spending time with his grandchildren. Jenny's mother works as a manager at an elementary school kitchen and plans to retire in the next year or so. Her mother has a passion for cooking and hosting family events which has been passed down to Jenny. Jenny has a sister who is 14 months older than her. They are very close to each other. Her sister married her high school sweetheart and they now have four beautiful children. Jenny's parents are very involved in their grandchildren's lives and enjoy having the kids over for sleepovers and babysitting.

Jenny and Jason are blessed to have such an amazing extended family that all live so close by. Many weekends we get together to have a family dinner or just get together for a game night. On Jenny's side of the family we get together about every other month to celebrate birthdays. There are many birthdays which are close in time to each other that we are able to get together and celebrate a couple at a time.

With Jenny's Family at King's Island

4th of July with Jason's Niece & Nephew

Our Favorite Vacation Spot

Our favorite vacation spot is somewhere warm with sand and warm water. We enjoy the calmness of the ocean waves. The best vacation is when family and friends get to join us. We have visited family several times in Florida and have had the chance to visit different beaches while we were there.

On the Beautiful Beaches of Hawaii

Our favorite beach of all was the beach in Honolulu, Hawaii. The water was so blue and the sky was just as blue. There rarely seemed to be a cloud in the sky. It was very different being six time zones later than what we were use to. We would be ready for bed so early in the evening and then would wake up in the middle of the night.

It was the chance of a lifetime to go to Hawaii. We were lucky enough to stay 10 days in what seemed like paradise. While we were there we went on many different adventures. We were able to tour the whole island of Oahu, hike up to the top of an old volcano, and visit Pearl Harbor. There were survivors of the Pearl Harbor attacks there signing autographs. Pearl Harbor is a memory that we will remember for the rest of our life.

Celebrating Grandma's 90th Birthday with Our Youngest Niece

Dear Birthparent(s),

We are a couple that can't wait to be parents. We can't wait to love your child unconditionally with all of the affection and support that can be offered. It is our hope to share family customs and our happy, safe home with your child.

Married for almost 3 years now, we both knew at a young age that we couldn't wait to be parents and raise a child. We work well as a team to solve problems that we face, but to also love each other equally. After a long day of work we are there for each other to talk about all positives and negatives of our day. Coming from two loving homes with families that have modeled how to be great parents and love a child. Both of us have been raised to treat others the way that we would want to be treated.

After several years now of trying to get pregnant, many months of fertility appointments, and month after month of the disappointing feeling of not becoming pregnant we realized that adoption was the path that we wanted to take. To adopt was not a hard decision at all for us. On both sides of our families, we have two siblings who came to our families through adoption.

We have been blessed to come from families that have several nieces and nephews. Loving them and taking an active role in their lives has helped us better prepare for the role of being a parent. Both of our parents are excited about the thought of having more grandchildren and want nothing but the best for us.

Besides our loving and respectful relationship that we have, what makes our marriage so unique is the aspect that we both have wanted children all of our lives. One of the first things that we discussed when we started dating was not only if we wanted to have children, but when and how many. On our wedding day many started asking us about when we would have children and we were excited about starting a family right away. Also what makes our marriage so unique is that we both care for everyone and would do anything possible to help someone else.

Jenny is a pharmacy technician and Jason is an elementary school teacher. During the summers Jason has off for almost three months, but during the school year we will make whatever changes to our schedules that our needed in order to spend as much time as possible with your child. Being able to spend time as a family is something that we dream about and we would love to be able to share your child with our family and friends.

Both of us love to travel and stay active. We love to just get in our car and take day trips. Most of all we love the chance to be outside. When the weather is nice enough we will head to the zoo or downtown to walk around and do some shopping. Usually in the summertime we take vacations to beach areas. On a nice sunny day you will catch us out working in our yard. We look forward to including your child in all that we do.

We are Christians and belong to an amazing church. Your child will be raised to be loving and compassionate for others. We will provide your child with the best education possible and encourage him or her to follow their dreams and explore their talents. In the end, we will support your child 100 percent.

We understand how difficult this decision must be for you. We promise to be nothing but loving, caring, and supportive of your child. We will also be very open and honest with them about their adoption. As your child grows, we would be more than happy to share photos and letters so that you could see that your child is being loved and cared for if you so choose.

Thank you from the bottom of our hearts for taking the time to consider us. We would love to show you that if you give us this chance to raise your child that we will love and support them in all aspects of life.

Sincerely,

Jason & Jenny
